

EXHIBIT E

FLOOR PLAN LAYOUTS

Most agencies already have an idea on the type and number of seats and wheelchair positions needed to meet their floor plan requirements. A wide variety of alternative floor plans are available.

Agencies should work closely with Transit Plus, Inc. to develop and finalize their passenger seating floor layout plans. Based upon this consultation, Transit Plus, Inc. will develop a proposed floor plan based on the Agency's needs and fax a copy of the plan to the Agency for verification and approval.
